

Horizon Scanning on the Future of Photonics supported by APPG

A groundbreaking horizon scanning report on the future of photonics research has been released today by the Photonics Leadership Group and this APPG in Photonics and Quantum. The PLG brought together 26 of the UK's leading photonics researchers from 20 different institutions to ask "what will be the focus of photonics research a decade and more from now?"

For the full report, follow: https://photonicsuk.org/wp-content/uploads/2020/09/Future-Horizons-for-Photonics-Research_PLG_2020_b.pdf.

To support the **photonics companies in your constituency** whose international reputation for solutions to global challenges means many export over 80% of what they manufacture in the UK, please engage with the APPG via Carol Monaghan, MP, and/or contact appg@photonicsuk.org

"Photonics": Photonics includes the sciences, techniques and products that generate, transmit, process and capture light of all types.
